## Notes:

- Prime yields are only appropriate to a narrow band of assets where characteristics such as to location, design, tenant, lease terms and other relevant factors are fully met.
- Yields are based on 'Rack Rented' assets.
- By and large the majority of assets will fall outside the 'prime' category and hence softer/weaker yields will apply.
- Views on sentiment reflect investor sentiment towards the sector over a short term.
- West End Prime office yield excludes freehold assets in 'Garden Squares' and 'Trophy' buildings.
